Intuitive Arts - Accessing (and trusting) your intuitive channels.

The Intuitive Arts Module offers you tools for opening alternative ways of knowing and understanding. You learn to use your dominant channels to educate your quieter channels, eventually building trust in all of the information available to you in every moment. It is a powerful way to augment your ability to 'see' underlying issues and patterns in your students, allowing you to address the core needs.

The Intuitive Arts Module is included in the Embodying Grace and High Touch 2 courses.

It can also be taken on its own.
